WORK EXPERIENCE

TechTip24   *Remote*
Data Analyst   Nov 2023 - jan 2024
- Spearheaded the creation and launch of a comprehensive data science curriculum that increased participant engagement by 35%, enhancing skills in machine learning, predictive analytics, and effective data-driven decision-making techniques.
- Analyzed over 1 million rows of raw data to identify trends, implement comprehensive cleaning techniques, and establish a robust monitoring system that enhanced accuracy in reporting outcomes for ongoing training initiatives .

ETHNUS   *Remote*
Mern stack   May 2023 - jul 2023
- Engineered comprehensive full-stack solutions for real estate platforms, which streamlined user experience by decreasing load times by over 40%, optimizing the process of managing complex property listings.
- Analyzed user feedback to identify three primary causes of interface confusion within reporting tools; developed solutions that resulted in more intuitive layouts improving overall usability ratings from users during testing phases.

PROJECTS

E-AGRO | Github
- Engineered an innovative React-based platform to streamline the sale of agricultural products; implemented features that reduced loading time by approximately 5 seconds, facilitating smoother navigation for over 1,000 users monthly.
- Developed and launched interactive web pages utilizing PHP and SQL, achieving a significant 40% boost in page load speed; leveraged XAMPP to streamline local server setups for enhanced testing efficiency.

GLOBAL SALES | Github
- Extracted and processed sales data from Excel, enabling thorough analysis and   actionable business insights.
- Crafted and implemented interactive dashboards in Power BI to visualize sales data across 15 countries, enhancing visibility into performance trends and enabling actionable strategies for regional market growth.

ACHIEVEMENTS

- Solved over 300+ Coding challenges spanning various platforms.
- Engaged in diverse Hackathons and Competitions such as TezAsia, CodeKaze, and Flipkart GRID.
- Achieved an impressive feat by earning 14 badges in Google Cloud Computing, showcasing a strong command over various cloud computing technologies and services.
- Secured the 1st position in the Chess Tournament at AdVITya-2022, demonstrating exceptional proficiency in chess.

VOLUNTEERING ACTIVITIES AND LEADERSHIP

- Spearheaded strategic efforts to secure a top-three ranking in the university's chess league, elevating the club's reputation and attracting top-tier talent.
- Provided online chess instruction to children during the COVID-19 pandemic in 2021, demonstrating effective virtual teaching skills.

HOBBIES

- Engaged in the National Chess Championship (FIDE Rated) conducted by the All India chess Federation, demonstrating competitive prowess and dedication to the sport.
- Participation in International level online chess tournament (3rd Annual Kasparov Chess Foundation University Cup) on the behalf of VIT Uni.
